

**BLUE MOUNTAIN**  
COLLEGE  
OFFICE OF THE PRESIDENT

June 26, 2020

Dear Campus Community,

With COVID-19 cases increasing across the nation and across the region, I believe it is prudent for us to reinstate our plan for staff to work from home with employees reporting to campus as needed in consultation with their PC member. We now have three confirmed cases (two in the Office of the Registrar and one in the Department of Mathematics and Natural Sciences). All are at home and managing well.

By now everyone knows the essential practices for staying safe (hand washing, social distancing, mask wearing, temperature monitoring, and staying home if you are unwell). I must emphasize the importance of each of these practices with renewed emphasis on **mask wearing**. With the exception of when you are alone in your office, it is essential for your safety and the safety of others that you are properly wearing a mask on campus.

We will follow this plan for the next two weeks (June 29 – July 10). I appreciate your cooperation. May God rest on each of you a special measure of his grace and peace during these challenging days.

Sincerely,

Barbara C. McMillin  
President
